Forged Metal Artist Book

Yes, that's right, Jacqueline & Jackie are teaming up on this great artist's book. Your individualized cover will look like it is forged from a piece of old steel, but in reality you will create it using a fairly simple texturing technique. Starting the day will be Jacqueline, as she shares her secrets once again in developing fascinating textures, patinas and additional surface treatments to the cover design. For the second half of the day Jackie will lead you through a Coptic binding. Utilizing your new cover design and incorporating both watercolor and Mi-Tientes papers in an eight signature, 4 1/2 " x 6" book. It will be one to show family and friends. Appropriate for beginner or intermediate book binders. **Saturday June 13, 10 - 4:30** \$160/15 materials

Supply List: *(students are responsible to bring to workshop)*

- Scissors, Pencil & notebook
- Water container – at least 16oz
